Standby Guarantees

The Lyle A. Berman Revocable Trust has agreed to act as standby guarantor to purchase up to 271,856,832 Units that may be available as a result of any unexercised Rights under the Rights Offering, for subscription funds of up to $4,007,852.49. Lyle A. Berman, an insider of the Company, is the trustee of the Lyle A. Berman Revocable Trust. In addition, Kape Capital Inc., a consultant to the Company wholly owned by Christopher Kape, has agreed to act as a standby guarantor to purchase up to a total 30,666,667 Units that may be available as a result of any unexercised Rights under the Rights Offering, for subscription funds of up to $460,000. Even though there is no minimum subscription for Units under the Offering, the standby guarantors are bound by their standby commitment.

As consideration for acting as standby guarantors, the Company will issue bonus warrants to the standby guarantors entitling them to acquire up to a total 75,630,875 common shares, which represents 25% of the total number of Units which the two standby guarantors have agreed to purchase under their standby commitments. The bonus warrants will be allocated as follows:

Name of Standby Guarantor	**Maximum No. of Bonus Warrants**
Kape Capital Inc.	7,666,667
Lyle A. Berman Revocable Trust	67,964,208
Total:	**75,630,875**

The bonus warrants are exercisable at a price of $0.05 per share for a period of three years after the date on which performance under the guarantees could be required. Standby guarantors who receive Rights as a shareholder on the Record Date will not receive bonus warrants for exercising their Basic Subscription Privilege or, if applicable, Additional Subscription Privilege. If a standby guarantor exercises none of his Rights or exercises only a portion of his Rights, then the number of bonus warrants that will be issued to the Standby Guarantor will be reduced in accordance with the Exchange's policy.

If any standby guarantor does not fulfill their standby commitment to purchase any or all of their portion of the Units that have not been purchased by holders of Rights, the Company will still complete the Rights Offering and will issue the total number of Units that have been subscribed for.

Use of Net Proceeds of Rights Offering

Jackpot intends to use the net proceeds raised from the Rights Offering towards the payment of accrued interest to certain debentureholders, repayment of a loan debenture, to cover legal, transfer agent and regulatory fees associated with the Rights Offering and for general working capital. One of the debenture holders whose outstanding interest will be paid from the proceeds is the Lyle A. Berman Revocable Trust, of which Lyle A. Berman is the trustee.

~~P~~President & CEO Mr. Jake Kalpakian, states, "This rights offering is the right action to take as it gives the Company more financial liquidity. The Company will be able to catch up and pay out the outstanding interest that's owing to our convertible debenture holders and also redeem a specific debt note that is carrying a high interest rate, and in the process, substantially improve our financial balance sheet.

No U.S. Offering or Registration

This news release does not constitute an offer to sell, or the solicitation of an offer to buy securities in any jurisdiction, including the United States, other than the provinces and territories of Canada. The securities offered under the Rights Offering will not be or have not been registered under the United States *Securities Act of 1933*, as amended (the "**US Securities Act**"), or the securities laws of any state of the United States.
