Overview

The principal business of Jackpot is the developing and marketing of electronic table games (“ETGs”) to casino operators. The Company’s flagship dealerless poker product, Jackpot Blitz[®], is a digital ‘smart table’ which brings the social benefits of multiplayer casino games such as poker, blackjack and baccarat, into the digital era.

Effective on November 4, 2021, the Company completed a spinout of its online gaming software assets (the “Assets”) by way of a plan of arrangement (“the Arrangement”) under the Business Corporations Act (British Columbia). The Arrangement was carried out by statutory arrangement under Division 5 of Part 9 of the BCBCA. Pursuant to the Arrangement Jackpot has spun out its online gaming software to Yo Eleven Gaming Inc. (“Yo Eleven”) in exchange for 16,966,931 Yo Eleven common shares issued at the price of \$0.02 per common share for a total amount of \$339,339 to Jackpot’s registered and beneficial shareholders as of a November 1, 2021 (the “Record Date”) on the basis of one (1) Yo Eleven common share for every five (5) Jackpot common shares held by Jackpot shareholders. Simultaneously, all Yo Eleven shares held directly by Jackpot were returned to the treasury and were cancelled. As a result of the completion of the Arrangement, as of November 4, 2021, Yo Eleven is no longer a subsidiary of Jackpot, and has become a reporting issuer in the Provinces of British Columbia and Alberta qualifying as a Specified Small Business Corporation under the Income Tax Act (Canada).

The financial statements of the Company’s wholly-owned subsidiaries, Jackpot Digital (NV), Inc. (incorporated in the USA), and Touché Capital Inc. (incorporated in British Columbia) are included in the consolidated financial statements from the date that control commenced to the date of disposal or dissolution.

The Company’s offices are located at Suite 303 – 570 Granville Street, Vancouver, British Columbia, Canada, V6C 3P1 and at Suite 258 – 4664 Lougheed Highway, Burnaby, British Columbia, Canada, V5C 5T5. The Company’s warehouse is located at 4664 Lougheed Hwy, Unit W030, Burnaby, British Columbia, Canada, V5C 5T5.

The Company’s registered office is at Suite 3200 - 650 West Georgia Street, Vancouver, BC V6B 4P7.

The Company’s audit committee consists of Messrs. Neil Spellman (Chairman), Gregory McFarlane and Alan Artunian.

The Company’s Registrar and Transfer Agent is Computershare Investor Services Inc. located at 510 Burrard Street, Vancouver, BC, Canada, V6C 3B9.

Results of Operations

On August 15, 2022, the Company received licensing approval from the Redding Rancheria Gaming Commission, which is the regulator for Win River Resort & Casino (“Win River”) located in Redding, California.

During August 2022, the Company signed a licensing agreement with Piggs Peak Hotel & Casino located in Eswatini (formerly Swaziland), Africa to install four (4) Jackpot Blitz[®] ETGs. The licensing agreement is subject to obtaining the customary regulatory approvals.

During July 2022, the Company signed a licensing agreement with Buffalo Bill’s Casino Resort, located in Primm, Nevada to install two (2) Jackpot Blitz[®] ETGs. The licensing agreement is subject to obtaining the customary regulatory approvals.

On June 29, 2022, the Company successfully completed the installation of 2 (two) Jackpot Blitz® ETGs at Rosebud Casino, located in South Dakota.

During June 2022, the Company signed a licensing agreement with Casino Pauma, located in Pauma Valley, California to install two (2) Jackpot Blitz® ETGs. The licensing agreement is subject to obtaining the customary regulatory approvals.

During May 2022, the Company signed a licensing contract with Treasure Bay VI Corporation of the United States Virgin Islands to install one (1) Jackpot Blitz® ETG at Divi Carina Bay Resort & Casino located in St. Croix. The agreement is subject to obtaining the customary regulatory approvals, and resurrects the original agreement announced on May 15, 2020, which did not advance due to the COVID-19 pandemic.

During May 2022, the Company signed a licensing agreement with Win-River Resort & Casino, located in Redding, California to install two (2) Jackpot Blitz® ETGs. The licensing agreement is subject to obtaining the customary tribal regulatory approval. Jackpot currently holds all other required state and federal registrations.

On April 21, 2022, the Company introduced the next generation of Jackpot Blitz® to the casino world at the Indian Gaming Tradeshow and Convention. The new version of Jackpot Blitz® supports the Slot Accounting System (“SAS”) protocol, with capabilities to accept cash/voucher and print voucher at each seat.

During April 2022, the Company completed the installation of five (5) Jackpot Blitz® ETGs on site at Three Rivers Casino Resort located in Oregon.

During April 2022, the Company submitted additional software packages for Jackpot Blitz® for User Acceptance testing (“UAT”) to Jackpot’s client, Royal Caribbean Cruises Ltd. (“RCL”). Upon sign-off from RCL, Jackpot and RCL intend to begin field testing of Jackpot Blitz® and installation of the ETGs is expected to follow shortly after the UAT process is finalized.

During March 2022 the Company signed licensing agreements with:

- (i) Silver Wolf Casino, located in Wolf Point, Montana to install one (1) Jackpot Blitz® ETG;
- (ii) Pit River Casino located in California to install 1 (one) Jackpot Blitz® ETG; and
- (iii) Sac & Fox Casino located in Kansas to install 2 (two) Jackpot Blitz® ETGs.

On February 23, 2022, the Company signed a Licensing Agreement with Casino Cosmos located in Tsaghkadzor, Armenia to install 2 (two) of the Company’s Jackpot Blitz® ETGs.

On February 3, 2022, the Company received its Class II Gaming License from Three Rivers Gaming Commission located in Oregon.

On January 2, 2022, the Company signed an agreement for the installation of one Jackpot Blitz® ETG on the Resilient Lady, the newest member of the Virgin Voyages fleet.

Electronic Table Games

The Company is focused on the development and expansion of its ETG business with the primary focus during 2022 on: (i) licensing and distribution to the US Tribal land-based casino market; (ii) obtaining GLI certification for the next generation of Jackpot Blitz® ETG which includes the Slot

Accounting System protocol integration; and (iii) reduction of the production cost for the Jackpot Blitz® ETG.

The Company categorizes its ETG customers in three markets: cruise ships, North American casinos and other markets.

Cruise Ships

- The cruise ship industry operates their casinos while they are in international waters, and therefore, they do not require their gaming equipment vendors to attain any form of gaming license or product approval.
- During 2021, the Company acquired certain assets of 52 Gaming, LLC (“52 Gaming”) thereby fortifying its ETG monopoly in the cruise ship industry. 52 Gaming, based in North Carolina, manufactured and licensed its electronic poker tables (“ETGs”) to the cruise ship industry. This transaction has solidified Jackpot’s position as the leading Electronic Table Game supplier for the cruise ship industry.
- The Company typically leases ETGs on a monthly recurring basis to cruise ship companies and generates revenues according to the gross rakes, fees and side games offered.
- Carnival Corporation (“Carnival”) is the largest operator of the Company’s ETGs.
- The Company has installed three Jackpot Blitz® ETGs on the three ships of the Virgin Voyages fleet.
- The Company has in place a Software License and Equipment Lease Agreement (the “Agreement”) with Royal Caribbean International (“RCI”) to be the third cruise operator to offer the Jackpot Blitz® ETGs in their casinos. The Company submitted software for RCI’s User Acceptance Testing (“UAT”) for launch of the Jackpot Blitz® ETG on an RCI ship. During 2022, the installation date of the ETGs will be set after the RCI’s UAT finalization.

North American Casinos

- The North American casino industry is regulated at the federal, state, provincial and/or tribal levels as individual jurisdictions. Every jurisdiction approves the gaming equipment used in their casinos, usually in the form of a gaming or vendor licenses. Therefore, the Company must attain gaming licenses directly or through a distributor to expand its ETG business in North America.
- The Company currently holds approved gaming licenses and registrations in North America with the California Gambling Control Commission, the Department of Justice and Public Safety, Gaming, Liquor and Security Licensing in the Province of New Brunswick, the Rosebud Sioux Tribe of Nebraska, the Soboba Tribal Gaming Commission of California, and the Three Rivers Gaming Commission of Oregon. The Company currently has license applications underway with several States, a Province, and Tribal gaming regulators across North America.
- The Company typically leases ETGs on a monthly recurring basis to North American casino customers sharing revenue from the rakes generated by the ETGs.
- The Company has signed Agreements and/or Binding Letters of Intent with numerous entities in Canada and the United States which are contingent on the Company receiving license approvals by the relevant regulatory bodies.

Other Markets

- Markets outside cruise ships and North American casinos are considered on a case-by-case basis, depending on the revenue potential, practicality of deploying and supporting the Company’s ETGs in other countries/continents, and other considerations.
- The Company may opt to lease or sell ETGs in other markets.
- The Company has signed Sales/Service and/or Distribution agreements and/or Binding Letters of Intent with several entities in other markets.

- The Company has installed one Jackpot Blitz[®] ETG at the *Il Palazzo* land- based casino in San Lorenzo, Paraguay.

Research and Development

The Company is continuously developing new hardware and software components for the Jackpot Blitz[™] ETG and other products in the development pipeline. During the six-month period ended June 30, 2022, the Company incurred \$166,750 on salaries and benefits in respect to Research and Development (“R&D”). This cost was incurred primarily to develop new software features and improve the hardware with the aim to reduce cost and improve the efficiency of the Jackpot Blitz[®] ETG. Furthermore, during the six-month period ended June 30, 2022, the Company incurred \$55,396 for the purchase of parts and \$100,907 for the design fees of the next generation model of the Jackpot Blitz[®] ETG which were capitalized as the prototype and the Intellectual property respectively.

During 2022, the Company’s R&D efforts continue to develop new hardware and software components for the Jackpot Blitz[®] ETG. First, prototyping and redesigning critical hardware components of the Jackpot Blitz[®] ETG to reduce cost and improve manufacturability. Second, update the current software technology to improve the ability to update and add new software features efficiently for the Jackpot Blitz[®] ETG as well as other future gaming products. Third, the Company completed a project with an engineering consulting firm to redesign and prototype our next generation Jackpot Blitz[®] ETG to further reduce overall cost and scalability of manufacturing.

In June 2022, the Company entered into a master license agreement with an arm’s length third party to acquire an “SAS” Engine which enables Jackpot Blitz[®] ETG to be “SAS” compatible, a requirement to gain market access in many of the land-based jurisdictions.

Consulting and Advisory Agreements

On May 13, 2022, the Company engaged the services of Market One Media Group Inc. (“MarketOne”) to provide marketing and social media expertise in support of Jackpot’s growth initiatives. The Company has signed a contract for services to be provided over a 12-month period for a fee of C\$150,000, plus applicable taxes. MarketOne is a marketing agency for public companies with offices in Vancouver and Toronto. It offers a multi-platform media solution for the capital markets operating in print, digital, and broadcast television.

During March 2022, the Company hired a Chief Strategy Officer, Angelo Palmisano. Mr. Palmisano is a proven entrepreneurial leader with a track record of building successful companies, brands, and market segments globally through product creation and commercial execution. With his experience Jackpot intends to streamline its operational processes and update the Company’s strategic approach to the market. Mr. Palmisano has been granted 900,000 stock options which are exercisable at the price of \$0.10 per share for a period of two-years. Furthermore, in the event that Jackpot successfully completes any sale or strategic transaction that is introduced by Mr. Palmisano to Jackpot, then he will be entitled to receive a bonus.

Risks Related To Our Business

The Company, and the Securities of the Company, should be considered a highly speculative investment. The following risk factors should be given special consideration when evaluating an investment in any of the Company’s Securities:

- ***General legislative risk***

The Company’s business is heavily regulated.

Although management believes that the revenues generated from the Company’s gaming products represent lawful business, there is the risk that the legality may be challenged by Canadian or other legal authorities.

Changes in gaming legislations in any jurisdiction, or the Company’s inability to obtain, maintain and comply with all applicable and required licenses, permits, and certifications can adversely affect the financial affairs of the Company.

- ***Competition***

The marketplace for the Company’s gaming products is constantly undergoing changes, is intensely competitive and is subject to changes in customer preferences.

- ***Internet and system infrastructure viability***

Any changes in the internet’s role as the premier computer network information service or any shutdown of internet services by significant internet service providers may have an adverse material impact on the Company’s ability to generate revenues. Furthermore, the Company can be severely and adversely affected from power failures, internet slowdowns or failures, software slowdowns or failures or hackings.

- ***Reliance on key personnel***

The Company relies heavily on its employees, the loss of any of whom could have an adverse effect on the Company.

- ***Customer loyalty***

The Company also relies on its licensees for the operation of the Company’s gaming products, the loss of any of which could have an adverse effect on the affairs of the Company.

- ***Payment processing***

Changes in policies of companies, financial institutions or banks, that handle credit card transactions and/or other types of financial transactions for gaming, can have an adverse impact on the business and financial affairs of the Company.

- ***Foreign exchange rates***

The profitability of the Company can be affected by fluctuations in the exchange rate of the US Dollar in relation to the Canadian Dollar.

- ***Reliance on Major Customer***

The Company relies heavily on its major customer. In the event that the Company loses its major customer, then it will have an adverse effect on the Company.

- ***Price volatility and liquidity of the Company’s securities***

The market price of the Company’s common shares and warrants have experienced considerable volatility and may continue to fluctuate in the future. Factors such as the Company’s quarterly and annual results, changes in existing legislation, new legislation, technological changes and general market conditions may adversely affect the market price of the Company’s common shares and warrants. There is a limited trading market for the Company’s common shares and warrants, and the ability of investors to sell their shares and/or warrants or the price at which those shares and/or warrants may be sold cannot be assured.

- ***Growth management***

If the Company’s gaming products gain traction in the market, rapid growth may occur which can result in certain strains on the Company.

- ***Dilution***

There are a number of outstanding securities and agreements pursuant to which common shares of the Company may be issued in the future. This would result in further dilution to the Company’s shareholders.

- ***Revenues and Dividends***

While the Company generates some nominal revenues, the Company has not yet established a long-term pattern of consistently generating meaningful revenues. The Company intends to retain its earnings in order to finance growth. Furthermore, the

Company has not paid any dividends in the past and does not expect to pay any dividends in the future.

- ***Under Capitalized***

The Company has outstanding debts, has working capital deficiency, has limited revenues, and has no assurances that sufficient funding will be available to the Company to continue its operations for an extended period of time.

- ***Disruption in Trading***

Trading in the common shares and warrants of the Company may be halted or suspended or may be subject to cease trade orders at any time and for any reason, including, but not limited to, the failure by the Company to submit documents to the Regulatory Authorities within the required time periods.

- ***Coronavirus (COVID-19) Pandemic***

On January 30, 2020, the World Health Organization declared the coronavirus outbreak (COVID19) a “Public Health Emergency of International Concern” and on March 11, 2020, declared COVID-19 a pandemic. The current COVID-19 pandemic is significantly impacting the global economy and financial markets. The full extent and impact of the COVID-19 pandemic is unknown and to date has included extreme volatility in financial markets, a slowdown in economic activity and has raised the prospect of an extended global recession. As well, as efforts are undertaken to slow the spread of the COVID-19 pandemic, the operation and development of projects may be impacted as governments have declared a state of emergency or taken other actions. If the operation or development of one or more of the operations or projects of the Company is suspended, it may have a material adverse impact on the Company’s results of operations, and financial condition. The broader impact of the COVID-19 pandemic on investors, businesses, the global economy or financial and commodity markets may also have a material adverse impact on the Company’s results of operations and financial condition.

Presently, the majority of the Company's revenues are generated from licensing the Jackpot Blitz® ETG platform to the cruise ship industry. As a result of the cruise ship industry's suspension of operations due to the COVID-19 pandemic, the Company's revenues have been negatively impacted. The cruise ship industry operations are resuming and the Company expects future revenues generated from the cruise ship segment of its business to fluctuate from previous levels for an unpredictable period of time.

In regards to the land-based casino industry, into which the Company had been embarking an aggressive expansion, the Company’s expansion plans have now resumed, however, due to continued reduced capacity of many land-based casinos in North America and elsewhere due to the COVID-19 pandemic, the Company expects uncertainty in the land-based casino industry to impact its current business development pipeline and anticipated cashflows for the near to mid-term.

- ***Research and development risk***

Research and development carries an element of risk because it involves trying new and untested ideas. New or modified products or services may prove to be more difficult or costly to develop than anticipated due to engineering challenges encountered internally or with external vendors. Additionally, delays in commercializing new products and services may lead to a decrease in projected revenue.

The primary research and development risks for the Company include the following:

- a. **Custom large high-performance touchscreen.** The custom touchscreen used in the Company’s new product uses a combination of cutting-edge hardware and proprietary software techniques that are geared specifically for gesture-based game play. Due to the unique and new nature of this technology, the Company cannot realistically estimate the longevity and reliability of the touchscreen in a 24/7 casino environment. With the current shortage of display devices around the world, the custom large high-performance touchscreen has a long lead time, 4+ months, and if the demand of the product change, the Company may have difficulty meeting customer demand or hold a costly raw material in inventory until the demand is met which impacts company’s cash flow. The Company expects to mitigate this risk as it gains more operational experience with the touchscreen and newer technologies become available in the global touchscreen industry.
- b. **Product safety testing and certification.** New products must meet Canadian Standards Association (CSA) and/or Underwriters Laboratories (UL) standards to be used in the USA and Canada. Any scheduling issues or abnormal delays experienced by the 3rd party testing company will result in delays for launching the regulated version of the product. The Company has received its safety testing and certification reports for the Jackpot Blitz[®] ETG Platform under the applicable CSA, UL, and CE standards.
- c. **Electromagnetic compatibility (EMC) testing and certification.** New products must have a Federal Communications Commission (FCC) "Declaration of Conformity" label for it to be used in the USA and Canada. Any scheduling issues or abnormal delays experienced by the 3rd party testing company will result in delays for launching the regulated version of the product.

The Company has received its certification reports and Declaration of Conformity label for the Jackpot Blitz[®] ETG platform under the applicable FCC and CE EMC standards.

- d. **Gaming device testing and certification.** New products must undergo both hardware and software testing to be permitted for use in a regulated casino environment. Gaming products must comply with Gaming Labs International (GLI) standards in most gaming jurisdictions in the USA and Canada. Some jurisdictions, such as Ontario, have their own testing standards. Any scheduling issues or abnormal delays experienced by the 3rd party testing company will result in delays for launching the regulated version of the product.

The Company has received its Certification Document from Gaming Laboratories International (“GLI[®]”) that the Jackpot Blitz[®] ETG platform is compliant with the requirements of GLI-24 and the National Indian Gaming Commission’s Class 2 Gaming Systems standard. Jackpot Blitz[®] is also compliant with the applicable requirements from GLI-12, GLI-13, GLI-16 and GLI-21.

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

(a) Risk management overview

The Company's activities expose it to a variety of financial risks, including credit risk, liquidity risk and market risk. This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. The Company employs risk management strategies and policies to ensure that any exposure to risk is in compliance with the Company's business objectives and risk tolerance levels. While the Board of Directors has the overall responsibility for the Company's risk management framework, the Company's management has the responsibility to administer and monitor these risks.

(b) Fair value of financial instruments

The fair values of cash and cash equivalents, accounts receivable, due from related parties, accounts payable and accrued liabilities, lease liability, loans payable, due to related parties, interest payable, and refundable subscription approximate their carrying values due to the short-term maturity of these instruments. The non-convertible secured debentures and convertible debentures are classified as Level 3 financial instruments.

The significance of inputs used in making fair value measurements are examined and classified according to a fair value hierarchy. The levels of the fair value hierarchy are as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly;
- Level 3: Inputs for assets or liabilities that are not based on observable market data.

(c) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

The financial instruments that potentially subject the Company to a significant concentration of credit risk consist of cash and cash equivalents, and accounts receivable. The Company mitigates its exposure to credit loss associated with cash by placing its

cash and cash equivalents in a major financial institution. The Company’s cash and cash equivalents as at June 30, 2022 and 2021 are as follows:

	2022	2021
Cash and Cash Equivalents consists of:		
Cash	\$ 144,475	\$ 173,359
Term deposit	17,250	17,250
Variable Rate GIC	-	750,000
	\$ 161,725	\$ 940,609

As at June 30, 2022, the Company had a cashable term deposit of \$17,250 (2021 - \$17,250) readily convertible into cash, maturing July 31, 2022 with an annual interest rate of 0.60%.

As of June 30, 2022, the Company had a cashable term deposit of \$nil (2021 - \$750,000).

To mitigate credit risk on the Company’s trade receivables, the Company regularly reviews the collectability of the accounts receivable to ensure there is no indication that these amounts will not be fully recoverable.

(d) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they are due. The Company’s approach to managing liquidity is to ensure that it will have sufficient liquidity to meet its liabilities when due.

At June 30, 2022, the Company has cash and cash equivalents of \$161,725 (December 31, 2021- \$252,857) available to apply against short-term business requirements and current liabilities of \$5,768,336 (December 31, 2021 - \$5,458,090). All of the liabilities presented as accounts payable and accrued liabilities and due to related parties are due within 90 days of June 30, 2022. As at June 30, 2022, all of the Company’s debentures have maturity dates between one and two years. The Company will be required to raise additional capital in order to fund operations for the next twelve months.

(e) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates, will affect the Company’s income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimizing return on capital.

(i) Currency risk

The Company is exposed to foreign currency risk and has significant financial assets and liabilities denominated in US dollars. The Company has not entered into any foreign currency contracts to mitigate this risk. As at June 30, 2022, the Company is exposed to currency risk for its US dollar equivalent of financial assets and liabilities denominated in currencies other than Canadian dollars as follows:

Held in US dollars
(stated in Canadian dollars)

	June 30, 2022	December 31, 2021
Cash	\$ 137,592	\$ 68,837
Accounts receivable	224,189	175,124
Accounts payable and accrued liabilities	(349,328)	(303,538)
Promissory note	(232,778)	(381,803)
Deferred royalty liability	(392,430)	(367,609)
Interest payable	(2,220,751)	(2,003,429)
Non-convertible secured debentures	(2,640,199)	(2,496,466)
Net financial liability	\$ (5,473,705)	\$ (5,308,884)

Based upon the above net exposure as at June 30, 2022 and assuming all other variables remain constant, a 2% (December 31, 2021 - 2%) depreciation or appreciation of the US dollar relative to the Canadian dollar would result in a change of approximately \$109,474 (December 31, 2021- \$106,178) in the Company’s net loss and comprehensive loss.

(ii) Interest rate risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. Interest earned on cash and cash equivalents is at nominal interest rates, and therefore the Company does not consider interest rate risk to be significant.

As at June 30, 2022, the interest rate on the non-convertible secured debentures, loans payable, and convertible debenture balances have fixed interest rates. As such, the Company is exposed to interest rate price risk to the extent of these financial liabilities.

(iii) Other price risk

Other price risk is the risk that the fair or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk. The Company is not exposed to significant other price risk.

Off-balance sheet arrangements

The Company does not have any off-balance sheet arrangements.

Outlook

While the COVID-19 pandemic has negatively impacted the Company, business continues to gradually rebound in concert with the cruise ship industry bookings and sailings. In the meantime, land-based casinos traffic shows continued signs of recovery. The Company continues to maintain its business development activities to increase the number of Jackpot Blitz® ETG installations at US Tribal casinos and elsewhere. In addition to signing new business, a key indicator of the Company’s success will depend on its ability to obtain vendor licenses from the various regulatory agencies in a timely and efficient manner.

Leveraging the research and development undertaken during 2021, the Company introduced the next generation Jackpot Blitz® prototype to the casino industry at the 2022 Indian Gaming Tradeshow, and will unveil the product on a wider scale at the Global Gaming Expo in Las Vegas in October 2022. Since the unveiling, the next generation product has been attracting significant interests from casino operators in North America. The Company is working to obtain GLI-11 certification on the next generation Jackpot Blitz®. The next generation Jackpot Blitz® ETG features functionalities such as TITO and SAS protocol integration. These features capture the needs of casino operators and it is expected to significantly increase the number of casinos that are willing and able to install Jackpot Blitz® ETGs onto their casino floors. Management is optimistic that once GLI-11 certification has been obtained, it should increase the Company’s revenues.
