### **NEWS RELEASE**

#### **New Jackpot Blitz Features Increasing Table Revenue**

VANCOUVER, BRITISH COLUMBIA. September 16, 2019 – **Jackpot Digital Inc.** (the “Company” or “Jackpot”) (TSX-V: JP) (TSX-V: JP.WT) (TSX-V: JP.RT) (US OTCQB: JPOTF) (Frankfurt & Berlin Exchanges: LVH2). Jackpot is pleased to announce it released two major new gameplay features to its Jackpot Blitz™ electronic table game platform in Q3. The two new features, a Bad Beat Progressive Jackpot and a house banked side bet, “Bet the Flop”, have increased product revenue per table by more than 10% year over year through two (2) months of operation.

In addition, one (1) of the Company’s Jackpot Blitz™ tables earned the Company more than \$11,000 USD in August 2019, the most profitable single table month since the launch of Jackpot Blitz™ in 2017.

Mr. Jake Kalpakian, Jackpot President and CEO, states “the launch of Bad Beat Progressive Jackpot and Bet the Flop have been very positive, helping us deliver new revenue opportunities to our customers and increasing our revenue in turn. We continue to build on the value proposition of Jackpot Blitz™, it’s more fun to play, costs less to operate, and generates more money than a traditional poker table while players still enjoy the same social interaction. The fact is you can continually add content through the Jackpot Blitz™ ETGs and expand the player entertainment experience while at the same time increasing profits. We look forward to many more positive developments as we release new features for Jackpot Blitz™ in the near future.”
